

# HUNTER'S HILL COUNCIL FEES & CHARGES

FY 2023/24

## Hunter's Hill Council Statement of Revenue Policy – User Charges

Council has the ability to raise revenue through the adoption of a fee or a charge for services or facilities.

The fees and charges which Council can charge are split into two categories:

1. Statutory Fees – These fees are generally determined by State Government Legislation, and primarily relate to building, development or compliance activities. They include inspection services planning and building regulation (DA fees) and S10.7 Certificates and S603 Certificates. Council has no control over the calculation or any annual increase of these fees and charges. However, these are also subject to the level of activity determined by economic conditions. Statutory fees are subject to change as published by the relevant Government Authority.
2. Council has the capacity to determine the charge or fee for discretionary works or services such as the use of community facilities and access to community services.

### ***Pricing Methodology for non-statutory fees***

Aside from statutory fees, fees are introduced to offset the cost of service provision or, in the case of commercial activities, to realise a reasonable rate of return on assets employed by Council to support the provision of services and to alleviate the burden that would otherwise be unfairly placed upon ratepayers.

Council has given due consideration to the following factors in determining the appropriate price for each fee:

1. Cost of providing the service
2. Whether the goods or services are supplied on a commercial basis
3. Importance of the service to the community
4. Capacity of the user to pay
5. Impact of the activity on public amenity
6. Competitive market prices

In accordance with Section 608 of the Local Government Act 1993, Council determines fees and charges based on one of the following pricing methodologies:

1. Full cost recovery - Recovery of all direct and overhead costs associated with providing a service
2. Subsidised / Partial cost recovery - Council recovers less than full cost for reasons of community obligation, legislated limits on charging
3. Rate of return - Council recovers the full cost of providing the service/activity plus a profit margin
4. Market - Price of the service determined by investigating alternative prices of surrounding service providers

## Roads

### General Conditions for Roads and Footpaths

1. All fees described include the basic provision of the service during normal business hours under normal circumstances. Where works are required to be undertaken on weekend or as night works a surcharge of 50% will apply to these rates. Any other costs such as traffic control and any other costs that are not on the fees and charges will require a variation or be added to the total costs. If additional costs arise due to unforeseen circumstances, the costs will be passed on and the applicant will be advised as soon as practicable.
2. The RMS may require specific requirements, including Road Occupancy Licences for State Roads, and these costs are not included in these fees. The costs associated with complying with the requirements of the RMS will be fully payable by the applicant.
3. RMS peak period time constraints are not included in the rates set out in this document. Where these constraints are imposed, the rates will be modified to reflect the limited access period to undertake the work. The applicant will be advised of the modified rate as soon as practicable.

### Unauthorised Works in the Road Reserve

This fee applies to unauthorised Road &/or Footpath Openings, Driveways and all other public infrastructure works by Private Contractor.

If it is necessary for Council to process a road opening permit after works have commenced by the applicant or their contractor an additional fee will be payable. A person undertaking work within the road reserve could potentially have an Infringement Notice issued as a penalty under the Roads Act for failing to obtain consent from the Council. This fee is in addition to all other road opening fees, including application fees, inspection fees, permanent reinstatement costs and security deposits. The fee is determined by assessing the value of the Council's permanent reinstatement work for the unauthorised work:

### Unauthorised road opening processing fee

Value of Council's permanent reinstatement work valued up to \$5,000	\$1,000.00	\$1,000.00		N	N
Value of Council's permanent reinstatement work valued from \$5,001, up to \$25,000	\$2,000.00	\$2,000.00		N	N
