Attention: Magdalena Neilson

Dear Magdalena

St Joseph's College Memorial Pool Redevelopment Statement of Acoustic Impact - Updated Usage Profile

SLR Consulting has prepared the DA acoustic report for St Joseph's College Memorial Pool Redevelopment (SLR report reference 610.18963-R01-v0.4 dated 29 October 2019).

SLR has reviewed the indicative usage profile (Revision 2 dated 4 March 2020) for the Memorial Pool Redevelopment.

SLR confirms that the usage profile does not contain any changes to the existing use that would affect the assessment in the acoustic report, including hours of operation, number of attendees and type of use.

On the basis of the above review SLR considers the assumptions in the acoustic report to remain valid for the supplied indicative usage profile.

Yours sincerely

MARK IRISH
Principal - Acoustics & Vibration
